

# Our Philosophy

Our Philosophy is to tell it like it is.....

Now maybe that's because of our Jersey roots, but being honest with everyone especially our customers is just what we do. We don't pull any punches and you always know exactly where we stand.

We only sell Quality G.E.T. that we can put our name behind and we do it better than the OEM dealers. We accept returns on all of our stock items without restocking fees & even if you don't have your paperwork!

If you're local we can stop by and help you identify the G.E.T. on your machine then deliver it if needed the next day, we deliver on our own trucks to most of the TriState area. If you can flip your cutting edge instead of buying a new one we'll tell you rather than selling you something you don't need....yea go figure.

But...If you feel the need to only buy parts from some big dealer that has their own private jets...have fun, we'll even give you their phone number.

Us Guys at Bucket Supply are all men of character, we fish, we hunt, we own guns, we drink bourbon & smoke cigars, we don't mind grease under our fingernails, we can read a map, the phrase "We Can't" is not in our vocabulary. On the subject of Ground Engaging Tools there aren't a dozen people in the world that know more than us!
